LETTER OF RECOMMENDATION

I first became acquainted with **Mr. Vyom Khanna** in 2021 when he was deployed as a BI Developer at Care Health Insurance Ltd, as a client, from Team Computers. During the course of my association I had a chance of observing his aptitude for higher studies. He is a sincere and polite employee with a yearning to learn. He grasps concepts quickly and dedicatedly involves himself with his work. I am particularly impressed by his versatility and conscientious way of learning.

My impression is based on his time in claims department from September 2021 to September 2022. I had plenty of occasions to observe him during his course of work. His careful attention to detail, intuitive approach to problems, scholastic ability and logical responses at work and discussions particularly emphasize his outstanding potential to undertake higher studies. He persistently presented himself as being active in thinking and original in viewpoint. He is optimistic and always ready to offer help. He has the aptitude to work in team as well as in independent projects.

Vyom has the potential to excel in a Master's program through his logical and methodical thinking and his positive attitude towards various challenges. He needs formal training and a pleasant atmosphere provided by your esteemed institution to enhance his skill-set and realize his innate potential. With all his abilities and qualities, he surely will evolve into a distinguished professional if enrolled in your University. I will appreciate your assistance for the same.
